

ST ANTHONY'S CATHOLIC PRIMARY SCHOOL

e-Safety POLICY

Policy accepted by Governors:

Signed _____ COG

Signed _____ HT

Scope of the Policy

This policy applies to all members of the *school* community (including staff, pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the *school*.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the *school* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying or other eSafety incidents covered by this policy, which may take place outside of the *school*, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The *school* will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate eSafety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the eSafety roles and responsibilities of individuals and groups within the *school*:

Governors:

Governors are responsible for the approval of the eSafety Policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governors* receiving regular information about eSafety incidents and monitoring reports. A member of the *Governing Body* has taken on the role of *eSafety Governor*. The role of the *eSafety Governor* will include:

- regular meetings with the eSafety Co-ordinator
- regular monitoring of eSafety incident logs
- reporting to relevant Governors/ meeting

Headteacher:

- The *Headteacher* has a duty of care for ensuring the safety (including eSafety) of members of the school community by taking day to day responsibility for eSafety issues and has a leading role in establishing and reviewing the school eSafety policies / documents.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious eSafety allegation being made against a member of staff. (see flow chart on dealing with eSafety incidents – included in a later section – “Responding to incidents of misuse” and relevant *Local Authority HR / other relevant body* disciplinary procedures).
- *The Headteacher / Senior Leaders are responsible for ensuring that the eSafety Coordinator and other relevant staff receive suitable training to enable them to carry out their eSafety roles and to train other colleagues, as relevant.*
- *The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal eSafety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.*
- *The Headteacher / Senior Leaders are to liaise with the Local Authority / relevant body*

eSafety Coordinator:

The eSafety Coordinator is responsible for:

- ensuring that all staff are aware of the procedures that need to be followed in the event of an eSafety incident taking place.
- providing training and advice for staff
- liaising with school technical staff
- receiving reports of eSafety incidents and creates a log of incidents to inform future eSafety developments
- meeting regularly with *eSafety Governor* to discuss current issues, review incident logs and filtering / change control logs
- reporting regularly to Senior Leadership Team
- collecting teacher and pupil views to monitor the effectiveness of eSafety procedures and the curriculum

Technical staff:

The Technical Staff are responsible for ensuring:

- that the *school's* technical infrastructure is secure and is not open to misuse or malicious attack
- that the *school* meets required eSafety technical requirements
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- *the filtering policy (if it has one), is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person*
- that they keep up to date with eSafety technical information in order to effectively carry out their eSafety role and to inform and update others as relevant
- that the use of the *network / internet / Learning Platform / remote access / email* is regularly monitored in order that any misuse / attempted misuse can be reported to the *Headteacher / eSafety Coordinator* for investigation / action / sanction
- *that monitoring software / systems are implemented and updated as agreed in school policies*

Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of eSafety matters and of the current eSafety Policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to the *Headteacher / Senior Leader / eSafety Coordinator* for investigation / action / sanction
- all digital communications with pupils / parents / carers should be on a professional level *and only carried out using official school systems*
- eSafety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the eSafety Policy and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations

- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated Safeguarding Officer

Should be trained in ESafety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Pupils:

- are responsible for using the *school* digital technology systems in accordance with the Pupil Acceptable Use Agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying
- should understand the importance of adopting good online eSafety practice when using digital technologies out of school and realise that the *school's* eSafety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The *school* will take every opportunity to help

parents understand these issues through *newsletters, website and information about national / local eSafety campaigns / literature*. Parents and carers will be encouraged to support the school in promoting good eSafety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website and on-line pupil records

Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *pupils* to take a responsible approach. The education of *pupils* in eSafety is therefore an essential part of the school's eSafety provision. Children and young people need the help and support of the school to recognise and avoid eSafety risks and build their resilience.

eSafety should be a focus in all areas of the curriculum and staff should reinforce eSafety messages across the curriculum. The eSafety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned eSafety curriculum should be provided as part of Computing / PHSE / other lessons and should be regularly revisited
- Key eSafety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Pupils should be helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.

- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.

Education – Parents / Carers

Many parents and carers have only a limited understanding of eSafety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- *Curriculum activities*
- *Letters, newsletters, web site, Learning Platform*
- *Parents / Carers evenings / sessions*
- *High profile events / campaigns e.g. Safer Internet Day*
- *Reference to the relevant web sites / publications*

Education & Training – Staff / Volunteers

It is essential that all staff receive eSafety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal eSafety training will be made available to staff. This will be regularly updated and reinforced. An audit of the eSafety training needs of all staff will be carried out regularly.
- All new staff should receive eSafety training as part of their induction programme, ensuring that they fully understand the school ESafety Policy and Acceptable Use Agreements.
- It is expected that some staff will identify eSafety as a training need within the performance management process.
- The ESafety Coordinator (or other nominated person) will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.
- This ESafety Policy and its updates will be presented to and discussed by staff in staff meetings, INSET days and is included in the staff handbook.

- The ESafety Coordinator (or other nominated person) will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in eSafety training / awareness sessions, with particular importance for those who are members of any subcommittee / group involved in technology / eSafety / health and safety / safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their eSafety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users at KS2 and above will be provided with a username and secure password. Users are responsible for the security of their username and password
- The “master / administrator” passwords for the school ICT system, used by the Network Manager (or other person) must also be available to the *Headteacher* or other nominated senior leader and kept in a secure place
- The schools technical team is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users.

- Internet filtering should ensure that children are safe from terrorist and extremist material when accessing the internet.
- *School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.*
- *An appropriate system is in place for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).*
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- *An agreed policy is in place regarding the extent of personal use that users (staff / pupils / community users) and their family members are allowed on school devices that may be used out of school.*
- *An agreed policy is in place that allows staff to / forbids staff from downloading executable files and installing programmes on school devices.*
- *An agreed policy is in place regarding the use of removable media (eg memory sticks / CD/ DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.*

Mobile Technologies (including BYOD/BYOT)

Mobile technology devices will be school owned and might include: smartphone, tablet, notebook / laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile / personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to the Safeguarding Policy, Behaviour Policy, Bullying Policy, Acceptable Use Policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's ESafety education programme.

- The school Acceptable Use Agreements for staff and pupils/students will give consideration to the use of mobile technologies
- The school allows:

	School Devices			Personal Devices		
	School owned for single user	School owned for multiple users	Authorised device ¹	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	No	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only				No	No	Yes
No network access				No	No	

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website / social media / local press

¹ Authorised device – purchased by the pupil/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

- In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other *pupils* in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school academy policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Pupil's work can only be published with the permission of the pupil and parents or carers.

Data Protection (refer to Data Protection Policy)

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data transfer / storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

Communication Technologies	Staff & other adults				Pupils			
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Mobile phones may be brought to the school	✓							✓
Use of mobile phones in lessons				✓				✓
Use of mobile phones in social time	✓							✓
Taking photos on mobile phones / cameras				✓				✓
Use of other mobile devices e.g. tablets, gaming devices				✓				✓
Use of personal email addresses in school on school devices				✓				✓
Use of school email for personal emails				✓				✓
Use of messaging apps				✓				✓

Use of social media				✓				✓
Use of blogs				✓				✓

When using communication technologies the school considers the following as good practice:

- The official *school* email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. *Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems.*
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school email addresses for educational use.
- Pupils should be taught about eSafety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school* or local authority

Personal Use:

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The *school's* use of social media for professional purposes will be checked regularly by the senior risk officer and ESafety Group to ensure compliance with the school policies.

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in / or outside the school when using school equipment or systems. The school policy restricts usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	

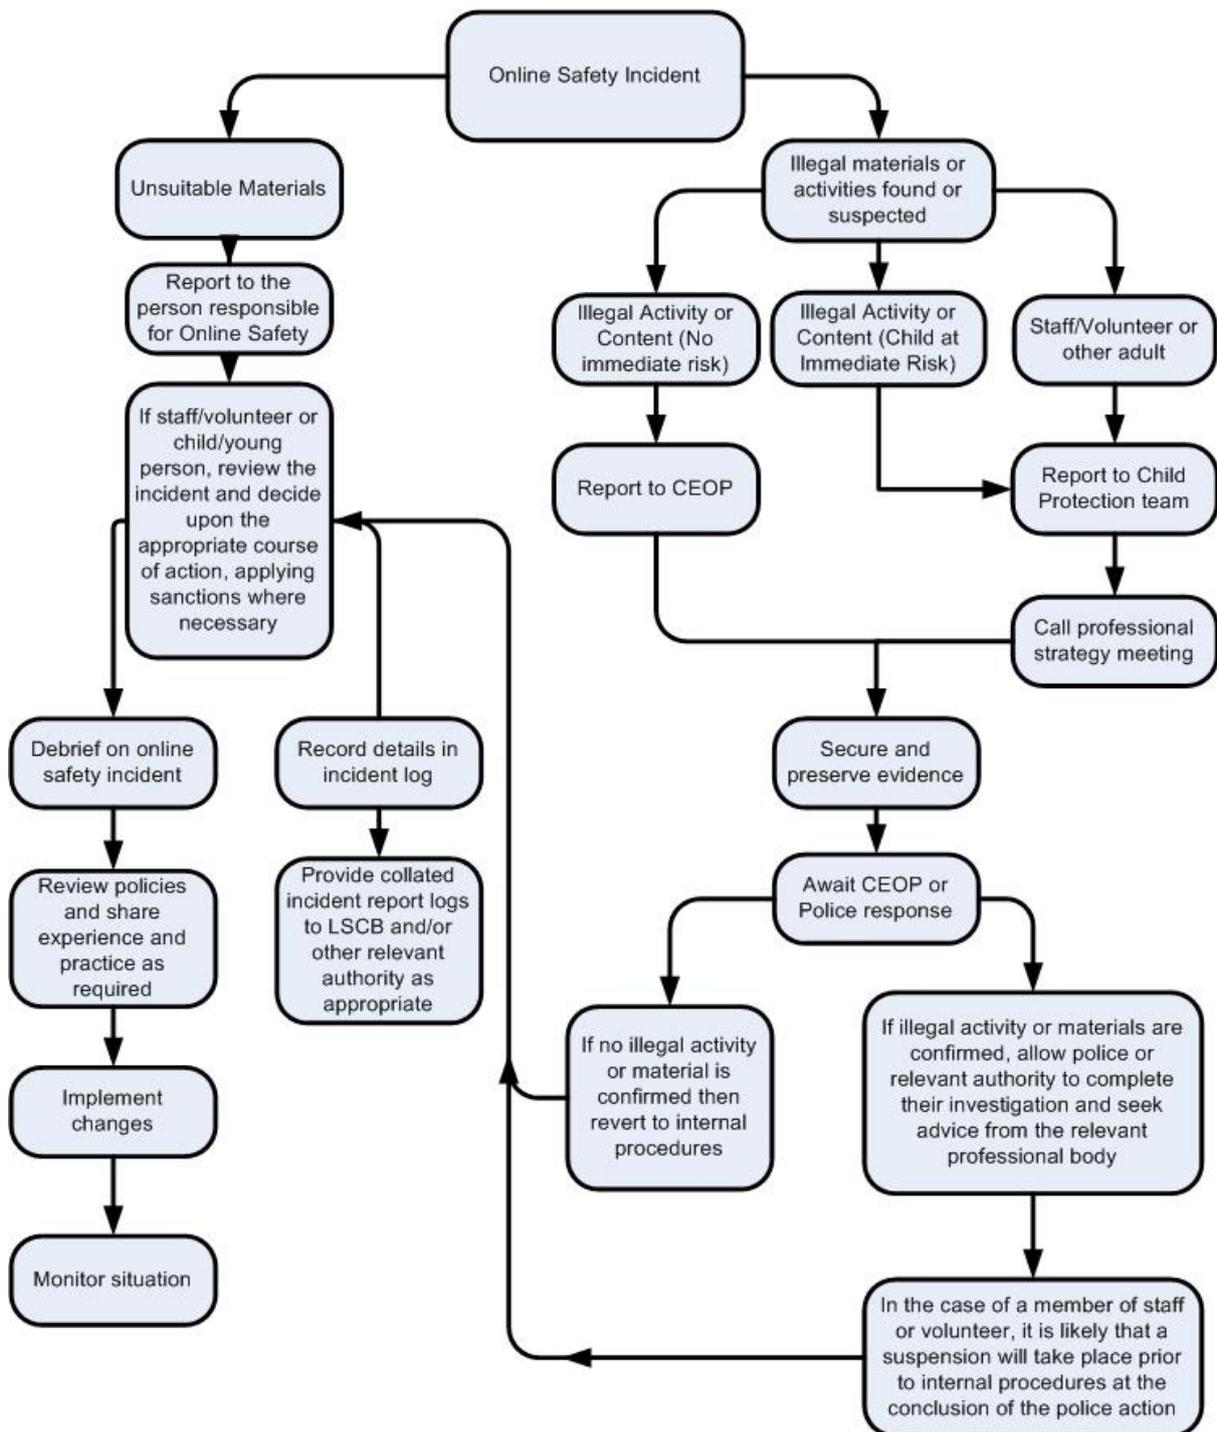

Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
Infringing copyright				X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X	
Creating or propagating computer viruses or other harmful files				X	
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)				X	
On-line gaming (non-educational)				X	
On-line gambling				X	
On-line shopping / commerce				X	
File sharing			X		
Use of social media				X	
Use of messaging apps				X	
Use of video broadcasting e.g. Youtube				X	

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to eSafety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff/ volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority/ local organisation (as relevant).
 - Police involvement and/or action
- If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

School Action

Cyber bullying, Data Protection, Social Media and Copyright.

Appropriate Agencies

Child sexual exploitation, Pornography, Radicalisation and Grooming.

Pupil Acceptable Use Agreement Templates

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the *pupils* to agree to be responsible users.

St Anthony's Catholic Primary School

AUP Guidance notes for learners in KS2

When I am using the computer or other technologies, I want to feel safe all the time.

I agree that I will:

- 😊 always keep my passwords a secret
- 😊 only visit sites which are appropriate to my work at the time
- 😊 work in collaboration only with individuals or groups agreed by my teacher or other responsible adult
- 😊 tell a responsible adult straight away if anything makes me feel scared or uncomfortable online
- 😊 make sure all messages I send are respectful
- 😊 inform a responsible adult if I get a nasty message or get sent anything that makes me feel uncomfortable
- 😊 do not reply to or forward any nasty message or anything which makes me feel uncomfortable
- 😊 do not give my mobile phone number to anyone who I don't know or have not met
- 😊 only email people I know or those approved by a responsible adult
- 😊 only use email in school which has been provided by school
- 😊 only connect to the agreed school wireless broadband while in school
- 😊 talk to a responsible adult before joining chat rooms or networking sites
- 😊 I will inform a responsible adult if I come across anything in chat rooms or networking sites that makes me feel uncomfortable
- 😊 always keep my personal details private. (My name, family information, journey to school, my pets and hobbies are all examples of personal details)
- 😊 always check with a responsible adult and my parents before I upload photographs of myself
- 😊 never meet an online friend without taking a responsible adult that I know with me

I understand:

- 😊 Using computers safely can make everyone's learning more enjoyable
- 😊 Anything I do on the computer may be seen by someone else
- 😊 Anything I put on the Learning Platform will have my name next to it
- 😊 Most social networking sites have a minimum joining age and it is a criminal offence to give false information e.g. lie about my age or gender
- 😊 Not everyone on line is who they say they are

I know that once I post a message, picture or any other item on the internet then it is completely out of my control.

I know that anything I write or say or any website that I visit may be being viewed by a responsible adult.

Pupil Acceptable Use Policy Agreement Template – for younger pupils (Foundation / KS1)

St Anthony's Catholic Primary School

AUP Guidance notes for learners in KS1

When I am using the computer or other technologies, I want to feel safe all the time.

I agree that I will:

- 😊 always keep my passwords a secret
- 😊 talk to my teacher before using anything on the internet
- 😊 only open pages which a responsible adult has said are OK
- 😊 tell a responsible adult if anything makes me feel scared or uncomfortable
- 😊 not give my mobile phone number to anyone who is not a friend in real life
- 😊 not tell people about myself online (I will not tell them my name, anything about my home and family and pets)
- 😊 not upload photographs of myself onto the internet
- 😊 never agree to meet a stranger
- 😊 only communicate with people I know in real life
- 😊 tell my teacher if I get a nasty message through a computer or phone
- 😊 not reply to any nasty message or anything which makes me feel uncomfortable
- 😊 make sure all messages I send are polite
- 😊 only email people I know or if my teacher agrees
- 😊 only use my school email
- 😊 only put something on the Learning Platform that I would be happy to say to my teacher

I understand:

- 😊 Using computers safely can make everyone's learning more enjoyable
- 😊 Anything I do on the computer may be seen by someone else
- 😊 Anything I put on the Learning Platform will have my name next to it

AUP Guidance notes for school workforce

The policy aims to ensure that any communications technology is used without creating unnecessary risk to users while supporting learning.

I agree that I will:

- only use personal data securely
- implement the schools E-learning and E-safety policies
- educate pupils in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation
- educate pupils in the recognition of bias, unreliability and validity of sources
- actively educate learners to respect copyright law
- only use approved e-mail accounts in school
- only use pupil images or work when approved by parents and in a way that will not enable individual pupils to be identified
- only give access to appropriate users when working with blogs or wikis etc...
- set strong passwords – a strong password is one which uses a combination of letters, numbers and other permitted signs
- report unsuitable content or activities to the E-Safety Coordinator
- ensure that videoconferencing is supervised appropriately for the learner's age
- read and sign the acceptable use policy
- pass on any examples of Internet misuse to a senior member of staff
- post any supplied E-safety guidance appropriately
- think carefully about what is stored on my laptop and make efforts to store sensitive data on the school server or private area on the Learning Platform

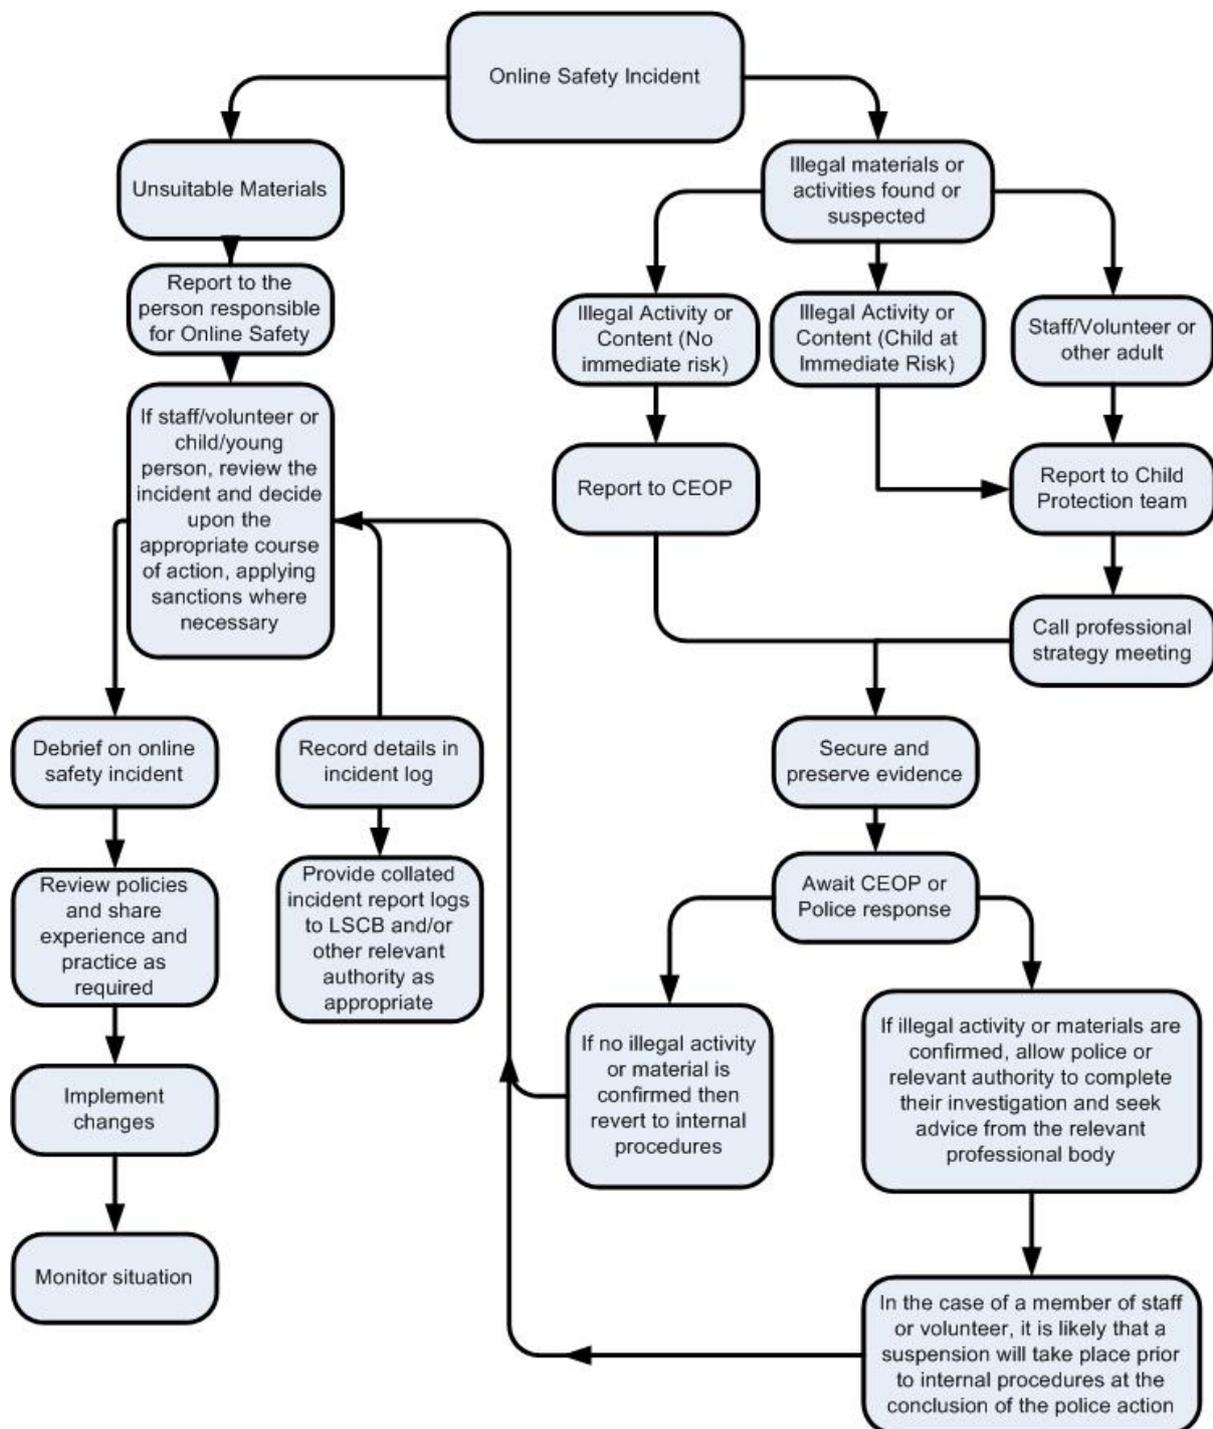

I agree that I will not visit Internet sites or make, post, download, upload or pass on: material, remarks, proposals or comments that contain or relate to:

- pornography (including child pornography)
- promoting discrimination of any kind
- promoting racial or religious hatred
- promoting illegal acts
- breach any Local Authority/School policies, e.g. gambling
- do anything which exposes children to danger
- any other information which may be offensive to colleagues
- forward chain letters
- breach copyright law

I accept that my use of the school and Local Authority ICT facilities may be monitored and the outcomes of the monitoring may be used.

Name **Date**

Responding to incidents of misuse – flow chart

School Policy Template: Electronic Devices - Searching & Deletion

DfE advice on these sections of the Education Act 2011 can be found in the document "Screening, searching and confiscation – Advice for head teachers, staff and governing bodies"

<http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>

It is recommended that the Headteacher and, at the least, other senior leaders should be familiar with this guidance.

Social Media Template Policy

Social media is a broad term for any kind of online platform which enables people to directly interact with each other. However some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

The school recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and pupils are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by *the school*, its staff, parents, carers and children.

Scope

This policy is subject to the school's Codes of Conduct and Acceptable Use Agreements.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education
- *Defines the monitoring of public social media activity pertaining to the school*

The school respects privacy and understands that staff and pupils may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with pupils/students are also considered. *Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.*

Organisational control

Roles & Responsibilities

- SLT
 - Facilitating training and guidance on Social Media use.
 - Developing and implementing the Social Media policy
 - Taking a lead role in investigating any reported incidents.
 - Making an initial assessment when an incident is reported and involving appropriate staff and external agencies as required.
 - Receive completed applications for Social Media accounts
 - Approve account creation
- Administrator / Moderator
 - Create the account following SLT approval
 - Store account details, including passwords securely
 - Be involved in monitoring and contributing to the account
 - Control the process for managing an account after the lead staff member has left the organisation (closing or transferring)
- Staff
 - Know the contents of and ensure that any use of social media is carried out in line with this and other relevant policies
 - Attending appropriate training
 - Regularly monitoring, updating and managing content he/she has posted via school accounts
 - Adding an appropriate disclaimer to personal accounts when naming the school

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a history department Twitter account, or a "Friends of the school" Facebook page. Anyone wishing to create such an account must present a business case to the School Leadership Team which covers the following points:-

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- If a journalist makes contact about posts made using social media staff must follow the school media policy before responding.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.

- The use of social media by staff while at work may be monitored, in line with school policies. *The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken*
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse

- When acting on behalf of the school, handle offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of a social networking site, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing messages are:

- Engaging
- Conversational
- Informative
- Friendly (on certain platforms, e.g. Facebook)

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload student pictures online other than via school owned social media accounts
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Students should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use

- Staff
 - Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
 - Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
 - Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
 - *The school permits reasonable and appropriate access to private social media sites.*
- Pupil
 - Staff are not permitted to follow or engage with current or prior pupils of the school on any personal social media network account.
 - The school's education programme should enable the pupils/students to be safe and responsible users of social media.
 - Pupils/students are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy
- Parents/Carers
 - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

Appendix

Managing your personal use of Social Media:

- “Nothing” on social media is truly private
- Social media can blur the lines between your professional and private life. Don’t use the school logo and/or branding on personal accounts
- Check your settings regularly and test your privacy
- Keep an eye on your digital footprint
- Keep your personal information private
- Regularly review your connections – keep them to those you want to be connected to
- When posting online consider; Scale, Audience and Permanency of what you post
- If you want to criticise, do it politely.
- Take control of your images – do you want to be tagged in an image? What would children or parents say about you if they could see your images?
- Know how to report a problem

Managing school social media accounts

The Do’s

- Check with a senior leader before publishing content that may have controversial implications for the school
- Use a disclaimer when expressing personal views
- Make it clear who is posting content
- Use an appropriate and professional tone
- Be respectful to all parties
- Ensure you have permission to ‘share’ other peoples’ materials and acknowledge the author
- Express opinions but do so in a balanced and measured manner
- Think before responding to comments and, when in doubt, get a second opinion
- Seek advice and report any mistakes using the school’s reporting process
- Consider turning off tagging people in images where possible

The Don'ts

- Don't make comments, post content or link to materials that will bring the school into disrepute
- Don't publish confidential or commercially sensitive material
- Don't breach copyright, data protection or other relevant legislation
- Consider the appropriateness of content for any audience of school accounts, and don't link to, embed or add potentially inappropriate content
- Don't post derogatory, defamatory, offensive, harassing or discriminatory content
- Don't use social media to air internal grievances

Acknowledgements

With thanks to Rob Simmonds of Well Chuffed Comms (wellchuffedcomms.com) and Chelmsford College for allowing the use of their policies in the creation of this policy.

Legislation

Schools should be aware of the legislative framework under which this ESafety Policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an e safety issue or situation.

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- "Eavesdrop" on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.
- Secure.
- Not transferred to other countries without adequate protection.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
 - Ascertain whether the communication is business or personal;
 - Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances

permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. youtube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of "higher law", affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data. (see [template policy in these appendices and for DfE guidance](#)

- <http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>)

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent / carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

<https://www.gov.uk/guidance/what-maintained-schools-must-publish-online>

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)
